Dennis and Briana,

Here are the accession numbers for the source documents that contained the aquatic comments.

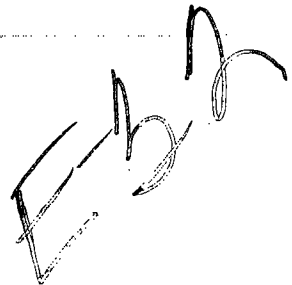

Most of the comments were from Elizabeth Brown of the Delaware Riverkeeper Network and Richard Schneider of the Coalition to Protect Our Fisheries.

Commenter ID	Commenter Name	Affiliation (If Stated)	Comment Source	ADAMS Accession No.
SHC-A	Jane Nogaki	New Jersey Environmental Federation	Afternoon Meeting	ML103400276
SHC-F	Elizabeth Brown	Delaware Riverkeeper Network	Afternoon Meeting, Written	ML103400276, ML110070274
SHC-G	Benjamin Wharton	Delaware Riverkeeper Network	Afternoon Meeting	ML103400276
SHC-H	Christina Matteliano	Delaware Riverkeeper Network	Afternoon Meeting	ML103400276
SHC-I	Jane Charles-Voltaire	Delaware Riverkeeper Network	Afternoon Meeting	ML103400276
SHC-J	Jason Hernandez	Delaware Riverkeeper Network	Afternoon Meeting	ML103400276
SHC-U	Richard Schneider	Coalition to Protect Fisheries Protection	Evening Meeting, Written	ML103400279, ML103500393
SHC-W	Scott Brubaker	New Jersey Department of Environmental	Written	ML110060284
SHC-X	PSEG Nuclear	PSEG Nuclear	Written	ML110030699 (page 18 of 94)

Dennis,

I can send you the accession numbers later today for the comment source documents. The comments in the attachment were verbatim from the source and were not summaries. They are excerpts, though.

Dan,

These are just the summaries, no? I need the real comments including attachments. If you don't have them handy, the ML access numbers will do.

Subject: Salem/Hope Creek aquatic comments

Dennis and Briana,

Here are the aquatic comments for the Salem/Hope Creek DSEIS. I highlighted in yellow what I believe to be the main concerns. I also generated some draft responses for you to edit as necessary. Please send any changes to me and I will incorporate them into Appendix A.

My take is that there are several categories within the aquatic comments:

- NRC should require cooling towers

- The aquatic impact is bigger than the NRC says it is...or...the conclusion is wrong
- Weakfish comments
- Atlantic sturgeon comments
- Estuary enhancement program comments

I would like to receive your responses by next Wednesday (Feb 2).

Thanks,

Dan Doyle

Leslie,

I talked to Briana and she is setting up the call with Julie for tomorrow. I have training in the morning, so I told Briana that I can sit in on it as long as the call starts after 1pm. I understand that they will be discussing the status of some other projects (in addition to Salem/Hope Creek) with NMFS as well.

I will send the aquatic comments to Dennis and Briana. Briana said they are splitting up some comments since she did the BA.

Hi Dan,

I am in training this week. Briana Balsam and Dennis Logan need to have a brief call with Julie Crocker from the NMFS. I am wondering if you can sit in on the call. If so, please touch base with Briana and Dennis. Also, please send Dennis any comments related to ecology that we need his input on. Please contact me if you have questions. I am periodically checking email. You can also reach me by cell (b)(6)

Thanks,

Leslie
